

## ENVIRONMENTAL POLICY

At Hoteles Saint Michel and Honne Hotels, we recognise our duty to protect the environment from the impact of our business activities. We understand the need to make a positive contribution to preserving precious resources and reducing our effect the environment. As a result, we stand by the following commitments:

- We are committed to studying our effect on the environment and to setting firm environmental objectives to evaluate the result of our activities.
- We will evaluate the achievement of these objectives with an annual review.
- We will comply with all current legislation and regulations.
- We are committed to minimising our use of water and energy, and to keeping waste production to a minimum.
- We will reduce the use of chemical products and harmful substances as far as possible; to minimise pollution and we will use products that are more respectful of the environment.
- We will raise awareness among our staff, clients, suppliers, and the local community, explaining our new environmental management system and inviting them to collaborate with us.
- Our staff will participate in regular training to understand the importance of environmental management and to provide them with the tools to put these practices into action.

**Juan Toribio**

Quality and Sustainability Manager at HSM and Honne Hotels
